INTRA UTERINE ENABLERS (IUE)

ACCURACY · INTUITIVE · SAFER · ERGONOMIC HANDLING

## EASIER FOR HEALTH CARE PROVIDERS

### Quicker and more convenient for providers:

- Operated by a **single hand** - no assistance needed
- **Ergonomically designed** - easier to handle
- Innovative and **Simple 2 Step Operation** (Push-Pull) - quicker to insert
- **Click sound** to adjust the device as per the depth of the uterus
- **Curvilinear Structure** and **Inbuilt Uterine Scale** - easy operability, convenience and accuracy
- **Soft nylon suture** - smooth, soft and gives excellent knot security

## SAFER FOR WOMEN

### State of art device that provides extra safety:

- Perfect fundal placement - **less bleeding, pain and lower risk of expulsions** compared to regular IUDs.
- No hormonal side effects
- **Withdrawal technique only**
- Superior Aseptic no touch technique
- Shape designed to suit the uterine cavity - **minimum discomfort** and reduces chances of uterine perforation
